How to use your plan

Find a doctor in your plan

The right doctor can make all the difference — and choosing one in your plan can save you money, too. So you'll be happy to know your plan includes lots of top-notch doctors. If you decide to get care from doctors outside the plan, it'll cost you more and your care might not be covered at all.

It's easy to find a doctor in your plan. Simply use the **Find a Doctor** tool on the **Sydney Health** mobile app or at anthem.com/ca to search for doctors, hospitals, labs and other health care professionals.

Schedule a checkup

Preventive care, like regular checkups and screenings, can help you avoid health problems down the road. Your plan covers these services at little or no extra cost when you see a doctor in your plan:

- Yearly physicals
- Well-child visits
- Flu shot
- Routine shots
- Screenings and tests

Check your plan details on the **Sydney Health** mobile app or anthem.com/ca to confirm what preventive care is covered.

Important Questions		Answers	Why This Matters:
What is the overall deductible ?		\$0.	See the Common Medical Events chart below for your costs for services this plan covers.
Are there services covered before you meet your deductible ?		No.	You will have to meet the deductible before the plan pays for any services.
Are there other deductibles for specific services?		No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan ?		\$1,000 /individual or \$2,000 /two-party or \$3,000 /family for In- Network Providers .	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?		Infertility services copay, Premiums , balance-billing charges, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?		Yes, CaliforniaCare. See www.anthem.com/ca or call (855) 333-5730 for a list of network providers .	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of- network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of- network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?		Yes.	This plan will pay some or all of the costs to see a specialist for covered services but only if you have a referral before you see the specialist .

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.

As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to this summary of benefits. This proposed benefit summary is subject to the approval of the California Department of Insurance and the California Department of Managed Health Care.

At Anthem Blue Cross, we know that prescription drugs are the fastest-rising item of your total health care benefits cost. Reasons for the spiraling costs of prescription drugs are varied: a general increase of prescription medication use, an aging population, research and development of new medications and the expense of direct to consumer advertising. With prescription drug costs increasing at twice the rate of medical care, we developed ways to contain costs so your copays remain affordable, while maintaining your access to safe, effective prescription drugs. Our Prescription Drug Program provides you with choice, flexibility, affordability and access to an extensive network of retail pharmacies.

Getting a Prescription Filled at a Participating Pharmacy

To get a prescription filled, you need only take your prescription to a participating pharmacy and present your member ID card. The amount you pay for a covered prescription – your copay – will be determined by whether the drug is a brand-name or generic medication and whether it is a formulary or non-formulary medication.

A generic drug contains the same effective ingredients, meets the same standards of purity as its brand-name counterpart and typically costs less. In many situations, you have a choice of filling your prescription with a generic medication or a brand-name medication.

The formulary is a list of approximately 600 recommended brand and generic medications. These medications have undergone extensive review for therapeutic value for a particular medical condition, safety and cost. Copies of our formulary are furnished to your providers and are available online at anthem.com/ca/ under the Pharmacy section. You or your provider may also contact our Pharmacy Customer Service at (800) 700-2541.

The following chart illustrates the relation between drug type and your copay amount at a participating pharmacy:

Drug Type	Copay Amount
Generic	\$5.00
Brand name formulary	\$10.00
Brand name non-formulary	\$40.00

Finding a Participating Pharmacy

Because our huge pharmacy network includes major drugstore chains plus a wide variety of independent pharmacies, it is easy for you to find a participating pharmacy. You can also find a participating pharmacy by going to our website at anthem.com/ca/.

An Extensive Network

Besides saving you money, our extensive network of pharmacies offers you easy accessibility.

- In California there are over 5,100 retail pharmacies. This accounts for nearly 95% of retail pharmacies in the state, including all major chains.
- Nationwide there are more than 61,000 chain and independent pharmacies.

Using a Participating Pharmacy

You can substantially control the cost of your prescription drugs by using our extensive network of participating pharmacies. Participating pharmacies have agreed to charge a discounted price or "negotiated rate" and pass along this savings to you.

Using a Non-Participating Pharmacy

If you choose to fill your prescription at a non-participating pharmacy, your costs will increase. You will likely need to pay for the entire amount of the prescription and then submit a prescription drug claim form for reimbursement. The pharmacist must sign and complete the appropriate section of the claim form to ensure proper processing of the claim for reimbursement.

Members that submit claims from non-participating pharmacies are reimbursed based on a **limited fee schedule**. The fee schedule may be considerably less than the cost of the medication. You are responsible for paying any difference.

The following chart illustrates potential increased out-of-pocket expenses for going to a non-participating pharmacy:

	Out-of-pocket costs using a participating pharmacy	Out-of-pocket costs using a non-participating pharmacy
Pharmacy's normal charge for brand-name formulary drug	\$50.00	\$50.00
You are responsible for:	\$10.00 copay	50% of the limited fee schedule plus any amounts exceeding the fee schedule up to \$250
Total out-of-pocket expenses	\$10.00	Expense varies based on the cost of the medication

You may obtain a prescription drug claim form by calling Pharmacy Customer Service at the toll-free number printed on your member ID card or by going to our website at anthem.com/ca/.

Home Delivery Prescription Drug Program

If you take a prescription drug on a regular basis, you may want to take advantage of our home delivery program. Ordering your medications by mail is convenient, saves time and depending on your plan design, may even save you money. Besides enjoying the convenience of home delivery, you will also receive a greater supply of medications. To fill a prescription through the mail, simply complete the Home Delivery Prescription form. You may obtain the form by calling Customer Service, at the toll-free number listed on your ID card or by going to our website at anthem.com/ca/. Once you complete the form, simply mail it with your copay and prescription in the envelope attached to the Home Delivery brochure. Please note that not all medications are available through the Home Delivery Program. Specialty pharmacy drugs are not available through the home delivery program, see Specialty Pharmacy Program below.

Out-Of-State Prescription Benefits

Our national network of participating pharmacies is available to members when outside California. To find a participating pharmacy, a member can check our Web site or call the toll-free number printed on the ID card. When using a non-participating pharmacy outside of California, the member will follow the same procedures for using a non-participating pharmacy in California as outlined above.

Additional Features That are Part of your Plan

Prior authorization as the term implies, is similar to prior authorization for medical services. Prior authorization applies to a select pool of medications that are often a second line of therapy. To require prior authorization, a drug must meet specific criteria. This criteria is based, among other things, on FDA-approved drug indications, targeted populations and the current availability of effective drug therapies. Prior authorization drugs are not covered unless you receive an approval from Anthem Blue Cross.

We distribute instructions on how to obtain prior authorization to physicians and pharmacies so that you may obtain prior authorization for required medications. You may call Pharmacy Customer Service, at the toll-free number printed on your member ID card, to receive a prior authorization form and/or list of medications requiring prior authorization.

Supply limits are the proper FDA recommendations for prescription medication dosage coupled with our determination of specific quantity supply limits to prescription medications. Although our standard pharmacy plans offer a 30-day supply for medications at a retail pharmacy, the supply limit can vary based on the medication, dosage and usage prescribed by your physician. For example, the supply limit for antibiotics used to treat an infection (e.g., 14 pills to be taken twice a day for one week) is different than blood pressure medication taken on a routine basis (e.g., 120 pills to be taken twice a day for 60 days). By adhering to specified supply limits, members are assured of receiving the appropriate amount of medication.

Specialty Pharmacy Program

Specialty medications are usually dispensed as an injectable drug, but may be available in other forms, such as a pill or inhalant. They are used to treat complex conditions. Prescriptions for a specialty pharmacy drug are covered only when ordered through the specialty pharmacy program unless you are given an exception from the specialty drug program (see your EOC for details). The specialty pharmacy program will deliver your medication to you by mail or common carrier (you cannot pick up your medication). You may have to pay the full cost of a specialty pharmacy drug if it is not obtained from the specialty pharmacy program. Specialty drugs are limited to a 30-day supply for each fill.

Programs for Member's Special Health Needs

We recognize that some of our members have unique health care needs requiring special attention. That's why we developed programs exclusively for them. Our additional medical management programs work in synergy with our pharmacy drug program to help members better manage their health care on an ongoing basis.

Diabetic members can receive **free glucometers** so that they can effectively and conveniently monitor their glucose levels.

Seniors can better monitor their chronic diseases and multiple medications through our **seniors-at-risk program**. This program reduces the possibility of toxic drug interactions, and curtails distribution of medications that may adversely affect the senior's chronic condition.

Asthmatic members and their families can take advantage of our program to better control the frequency and severity of the disease.

Members who take multiple prescription medications can take advantage of our pharmacy utilization management programs that encourage the safe, effective distribution of prescription medications. We have a program that protects the welfare of members with multiple prescription medications by carefully monitoring their prescription therapy to help reduce the danger of toxic drug interaction. For additional information regarding your prescription drug benefits, please call Pharmacy Customer Service at the toll-free number printed on your member ID card. Please refer to your Combined Evidence of Coverage and Disclosure Form which explains your plan's Exclusions and Limitations as well as the full range of your covered services in detail.

The legal stuff we're required to tell you

How we keep your information safe and secure

As a member, you have the right to expect us to protect your personal health information. We take this responsibility very seriously, following all state and federal laws, as well as our own policies.

You also have certain rights and responsibilities when receiving your health care. To learn more about how we protect your privacy, your rights and responsibilities when receiving health care, and your rights under the Women's Health and Cancer Rights Act, go to [anthem.com/ca/privacy](https://www.anthem.com/ca/privacy). For a printed copy, please contact your Benefits Administrator or Human Resources representative.

How we help manage your care

To see if your health benefits will cover a treatment, procedure, hospital stay or medicine, we use a process called utilization management (UM). Our UM team is made up of doctors and pharmacists who want to be sure you get the best treatments for certain health conditions. They review the information your doctor sends us before, during or after your treatment. We also use case managers. They're licensed health care professionals who work with you and your doctor to help you manage your health conditions. They also help you better understand your health benefits.

To learn more about how we help manage your care, go to [anthem.com/ca/memberrights](https://www.anthem.com/ca/memberrights). To request a printed copy, please contact your Benefits Administrator or Human Resources representative.

Special enrollment rights

Open enrollment usually happens once a year. That's the time you can choose a plan, enroll in it or make changes to it. If you choose not to enroll, there are special cases when you're allowed to enroll during other times of the year.

- **If you had another health plan that was canceled.** If you, your dependents or your spouse are no longer eligible for benefits with another health plan (or if the employer stops contributing to that health plan), you may be able to enroll with us. You must enroll within 31 days after the other health plan ends (or after the employer stops paying for the plan). For example: You and your family are enrolled through your spouse's health plan at work. Your spouse's employer stops paying for health coverage. In this case, you and your spouse, as well as other dependents, may be able to enroll in one of our plans.
- **If you have a new dependent.** You gain new dependents from a life event like marriage, birth, adoption or if you have custody of a minor and an adoption is pending. You must enroll within 31 days after the event. For example: If you got married, your new spouse and any new children may be able to enroll in a plan.
- **If your eligibility for Medicaid or SCHIP changes.** You have a special period of 60 days to enroll after:
 - You (or your eligible dependents) lose Medicaid or the State Children's Health Insurance Program (SCHIP) benefits because you're no longer eligible.
 - You (or eligible dependents) become eligible to get help from Medicaid or SCHIP for paying part of the cost of a health plan with us.
